Education

- **IIPS, DAVV** Indore, Madhya Pradesh
Master of Computer Applications (CGPA: 9.5) 2025 – 2027
- **IIPS, DAVV** Indore, Madhya Pradesh
Bachelor of Computer Applications (CGPA: 8.78) 2022 – 2025
- **Jeeva Jyoti Hr. Sec. School** Banapura, Narmadapuram, MP
Class 12th in PCM (89.2%) — Class 10th (96.67%) 2020 and 2022

Publications

- Published research paper “Arogya Jalam – Water Quality Monitoring and Valve/Motor Automation System” (Paper ID: 09) at IIPS-CoMET 2025, focused on Sustainable Development Goals, held at IIPS, DAVV, Indore.

Internship Experience

- **Banao Technologies (ATGWorld)** Remote
Python Developer Intern - Serverless Feb 2026 - Present
 - **Backend Development:** Designed and deployed serverless backend services using AWS Lambda, API Gateway, CloudFormation, SQS, S3, IAM, and CloudWatch
- **Infosys Springboard** Remote
Machine Learning Intern Oct 2025 - Dec 2025
 - **Machine Learning:** Developed SmartStock, an AI-powered inventory optimization platform using Django REST, PostgreSQL, XGBoost, Random Forest, and Gemini AI for demand forecasting, predictive analytics, and AI-driven business insights. [Live](#) | [Code](#)
- **Indore Municipal Corporation** Indore, MP
Project Intern Jun 2024 - Aug 2024
 - **IMC Office Locator:** QR-based navigation for government offices. *Javascript, HTML, CSS*

Projects

- **KrishiWala (Jan - May 2025):** Digital agricultural platform connecting multiple stakeholders. Independently developed user registration, profile management, land/labor/machine search, and Celery-based asynchronous notification modules end-to-end. **Tech:** *React.js, Vite, Tailwind CSS, Django REST, Python, Celery, SQLite3, Gemini AI, Vercel, Render* [Live](#) | [Code](#)
- **DocSense – Enterprise RAG-based AI Knowledge Assistant (Jun - Jul 2026):** Developed a secure, multi-tenant platform enabling organizations to query private documents via Web and WhatsApp. Engineered a custom RAG pipeline featuring dynamic recursive chunking, FAISS vector search, and Cross-Encoder re-ranking, paired with structured prompt/context design to maximize LLM (Gemini 2.5) accuracy and eliminate hallucinations. **Tech:** *React.js, Django REST Framework, LangChain, FAISS, Sentence-Transformers, Gemini 2.5, Meta WhatsApp Cloud API, PostgreSQL, JWT Auth* [Live](#) | [Code](#)

Achievements

- 2nd place at DC Hackathon (IIPS), Cleared Smart India Hackathon (SIH 2025) Internal Round
- Published research paper: “Arogya Jalam - Water Quality Monitoring System” at IIPS-CoMET 2025
- Solved 200+ LeetCode problems
- Completed 20-day IoT workshop at IIPS

Technical Skills

- **Languages:** Python, Core Java
- **Web:** React.js, Django REST Framework
- **AI/ML:** Supervised/Unsupervised Learning
- **Database:** MySQL, PostgreSQL, SQLite3
- **Backend & Tools:** Git, GitHub
- **Core Concepts:** Operating System, Database Management System, Computer Networks, Object-Oriented Programming
